Practicum Continuing Legal Education for Certified Elder Law Attorneys

The National Elder Law Practicum consists of lectures in those areas of law defined by NELF as being required knowledge for those who are specialists in the practice of elder and special needs law. The lectures are a great benefit to both CELAs needing to brush up on an area of law in which they may not regularly practice or CELA[®] applicants who wish to have a starting point for studying for the exam. The lectures were taped before live audiences. *

* The material in each DVD presentation is designed as a refresher course for certified elder law attorneys practicing in the area of the presentation. Persons who are intending to seek certification as a Certified Elder Law Attorney (CELA) should understand that the CELA exam is prepared independently from these materials and may include other and more current topics. The Practicum should be considered a survey in the areas of the law and is no substitute for a more thorough study of the twelve areas covered on the exam.
